# Tom McLaughlin Joins Argon Corporation in Support of its Continued Growth

**Great Neck, New York** – Argon Corporation continues on its aggressive growth path and is pleased to announce the appointment of Tom McLaughlin to our management team. Tom joins the company after 16 years of experience in video design and engineering management followed by product and marketing management roles within the defense visualization market space.

More recently he held the position of North American Market Director for the ground-based combat vehicle and mobile shelter visualization defense business Barco Federal Systems.

Commented Mike Forde, COO “We are pleased that Tom has accepted this position. His deep industry and technical knowledge fits right in with our target market and company culture. His ability to win the trust and confidence of the customer will go a long way in helping us to continue our growth path.”

Tom will be located at our new facility in the North Atlanta suburbs. His new position will be the Director of Business Development and Production Programs.

The new facility is located at 1225 Old Alpharetta Road, Alpharetta, Georgia and will initially be 11,000 ft<sup>2</sup> dedicated to the manufacture and delivery of Argon products. The sales and marketing team will also be located here. The design and prototyping will remain at our Great Neck, New York facility, where we have a seasoned and successful development team.

Tom has a Bachelor degree in Aerospace Engineering from Georgia Institute of Technology and a Master of Science in Aerospace Engineering from the University of Maryland.

### ***About Argon Corporation***

*Argon Corp, headquartered in Great Neck, New York, and with production facilities in Alpharetta, Georgia, has over 20 years of experience in designing, producing and supporting a variety of COTS rugged computing and display solutions that have been deployed in land based, naval and airborne applications world wide.*

*Argon Corp has developed a strong reputation for working with customers to design solutions to meet their exact requirements for their intended application. Over the years our products have demonstrated a high degree of reliability that can only be achieved from fielded use and periodic updates. As such, Argon Corp is a partner you can trust.*

*Argon products include rugged displays ranging in size from 5” (portable) to 20.1” (command and control applications). We offer compact wearable computing and display solutions (weighing 1.8lbs) to deployable workstations/laptops with up to 20.1” displays.*
