Chris Lippens Joins Argon Corporation as International Marketing & Sales Manager

Alpharetta, Georgia – Argon Corporation is pleased to announce the appointment of Chris Lippens to our Marketing and Sales team. Chris joins Argon after over 25 years of product marketing and sales management in Europe and Asia within the defense and industrial market for displays and computers.

In his new role Chris will be responsible to develop business and bring Argon “closer to the customer” in the European market along with providing close support for the Asian and other international customers and markets.

Chris has extensive experience as a product manager for the development of rugged vetronics displays, imaging systems and other rugged display products. He is a proven leader in marketing and sales in the rugged visualization market space.

Commented Mike Forde, COO “We are pleased that Chris has accepted this position. I personally worked with Chris for over 12 years and have a deep appreciation for his market and technical knowledge. He is committed to the highest level of customer support and I have no doubt that he will ensure that Argon international customers are fully supported and that our continued growth will be supported through a wider range of international programs than we now enjoy”.

Chris will be working from his office in Belgium. He will be reporting to Mike Forde, COO Argon and General Manager of Argon Alpharetta.

About Argon Corporation

Argon Corp, headquartered in Great Neck, New York, and with production facilities in Alpharetta, Georgia, has over 20 years of experience in designing, producing and supporting a variety of COTS computing tablet, rugged computing and display solutions that have been deployed in land based, naval and airborne applications world wide. Argon Corp has developed a strong reputation for working with customers to design solutions to meet their exact requirements for their intended application. Over the years our products have demonstrated a high degree of reliability that can only be achieved from fielded use and periodic updates. As such, Argon is a partner you can trust. Argon products include rugged displays ranging in size from 5” (portable) to 20.1” (command and control applications). We offer tablet solutions, rugged peripherals to deployable workstations/laptops with up to 20.1” displays.
